EXPERIENCE

Operations Manager June 2021 - Current
DoorLoop | Miami, FL

- Administered HubSpot's full suite of tools to streamline operations and enhance customer relationships, fostering a more cohesive brand experience.
- Developed and implemented JavaScript and React.js for the development of responsive, user-friendly lead generation tools, enhancing the user experience) and increasing user engagement.
- Streamlined lead generation processes through marketing automation tools and data analytics, significantly improving the number and quality of potential leads.
- Exploited data analytics, utilizing a data-driven approach to monitor, assess, and optimize operational performance and make informed business decisions.

Full Stack Software Developer Intern May 2022 – August 2022
Expedia Group | Seattle, WA

- Contributed to the building and implementing of frontend and backend systems using back-end technologies like Java SpringBoot, AWS and front-end technologies like React.js, HTML, and CSS.
- Stayed up to date with current technologies used in the company and collaborated with my team to spearhead the development of payment gateways and distribution systems.
- Used technologies like GitHub, Confluence, Jenkins, Spinnaker, Docker, and Jira as well as the SCRUM management framework to continuously develop, check, and deliver production code in an easy and efficient manner.
- Assisted in the development of a distribution system to efficiently deliver payments to third-party vendors and individuals working with the company.

Junior Web Developer / Webmaster May 2021 – June 2022
Florida International University | Miami, FL

- Provided front-end website development using Angular, CSS, and other editing and design software.
- Oversaw technical issues and troubleshooting requests to resolve surfaced problems.
- Designed, implemented, and monitored web pages, plugins, and functionality for continuous improvement.
- Applied knowledge of JavaScript and Object-Oriented Programming to create successful designs.
